

Niamh Hickey For Faculties Officer!

Why am I running for Faculties Officer?

I am passionate about the role of a student's voice. I believe that we need more student voices and opinions being raised in our university. Therefore, I think that we need more student representatives.

If I am elected as Faculties Officer, I will work with the Academic Officer to encourage students to sign up to represent their classes and departments.

From being a class representative myself, I know that our role may seem small. However, it is actually a very important role as it informs our elected officials and the university about what issues students face and what needs to change in UL.

Students unions and university boards need student voices and opinions when making decisions on how to run a university. I believe in giving these students more channels to voice their opinions.

During the COVID-19 pandemic, students became isolated from their classmates. Now that we are back on campus, students are still struggling to get to know people in their classes. I believe that we need to get students connected with their peers by having more department and faculty events. I plan on working with department heads and the Academic Officer to make this happen.

Some things to know about me:

- Limerick born and bred
- In my 3rd Year of BSc Applied Physics
- Currently my class representative and Volunteering Councillor on the Student Council
- Hard-working, passionate, love problem solving

When and where can you vote?

You can vote for me online at vote.ulsu.ie on the 24th of March.
