

Manifesto for Paul Barrett
19255659
Paul Photo for communities

1 Introducing a wolfpack weekend for the UL SL social media.

As president of UL Photosoc, I know the importance of showing off your club and Soc on campus through social media; if elected, I'll make it my mission to give every club and Soc the tools to make them stand out more. I aim to by WK 4 of next year to have Every weekend to showcase a different club or Soc. (for clubs and socs to showcase what they do) Structured and clearly to promote clubs and socs)

2 Bring back socs to make them more advertised.

There are so many screens on campus that could be used to promote C&S that are either turned off or only showing one thing (UL Sports has a TV screen, and also in the library has several screens that could be used to promote C&S)

3 Support for minority groups

Push efforts with getting non-English to take part in the free services like writing centre to help with them improve their writing.

4 Increased awareness of the disability services on campus (Dare and Hear)

There's a stigma around these two services there shouldn't be. I also think there needs to be done to help more people, which is why I would like also to ask for more funding to be given to these services so they can branch out more and put more money into the student assistance fund.

5 Promoting more events on campus.

Some weeks during the academic year, there isn't an event run by SL. If elected, I'll be asking for more organised events to help out, e.g. Agri Day (Wellington throwing, Hay Bale Throwing, etc.)

6 Diversities in food choice

Although stables do have a different meal option for vegetarian people to buy it is limited. If voted in I will try my best to sit down with the food providers on campus to see about the options of alternating meal menus, so it isn't the same thing different week. The goal is to have 4 different menus for each week of the month.

7 Commuter students

There is a significant amount of the population of UL that drive to UL to study. If elected I will try my best to reduce the price for the parking spaces on campus as this is a significant issue with students.

A contactless payment system is to be added.

Free car park for people who need them.

8 Sports

Sports is a massive part of the campus that doesn't get the dedication it deserves. If you vote for me, I will try my best to increase the funding that the sports and clubs need to operate in and outside of UL Sport.

Every student should be entitled to the best treatment possible

Introduce free Physio (Voluntary service for training physios - PVA hours)

9 Student Information & Support

Students need support, whether that being in college work or with personal matters, this is normal. UL SL currently has two people full-time employed, but the waiting list for a 20-minute chat is almost a month and a bit. This has to end; if elected, I will ask the University of Limerick to put more money into the service to employ someone new to allow for a new "drop-in support chat".

This will always allow for an open-door policy, which is o when you're in need.

10 Open Door Policy

College gets busy, and sometimes, finding an answer to something can be difficult. If elected my goal is to have a dedicated 3 hours a week that will be known as the "Drop in and ask" If there is anything you have a question about, I can help navigate you to the appropriate person to talk to.
