

**UL STUDENT LIFE
STUDENT EXECUTIVE COMMITTEE REPORT**

Role / Position		: Societies Officer
Author		: Jeremy Pili
Date		: 10 February 2022
Audience		: UL Student Council
Action		: Update & Opinion
Goals		
Main Goals	Progress since the last Council meeting	
Societies-Wide Communication	The WhatsApp chat continues to prove useful for society committees, questions and answers are being sent, especially since the relaxation of restrictions. Collaboration pitches have also been spotted, looking forward on potential events developing from those.	
Public Relations Supports for all C&S	Update received in regard to the Wolves Brand Update, continuing to discuss the plan for helping Clubs & Societies improve and better associate their brand with the main Wolves brand. Am currently concerned about the possibility that the new brands may be too similar, losing the diversity of the communities in pursuit of brand cohesion.	
Other Achievements since last Council		
Special Applications Processing	Reviewed and approved incoming applications, all proposals were reasonable and had no issues associated with their structure.	
Attendance at events/meetings and actions taken or agreed		
Student Life Executive	<ul style="list-style-type: none"> • Discussions surrounding the improvement of voter turnout later this semester, agreed to look into getting societies involved in the effort. • Provided feedback on the implementation of the Student Forum, weighing the advantages and challenges of using the courtyard marquee as the venue. 	
Clubs & Societies Executive	<ul style="list-style-type: none"> • Continued discussing the restructuring of the C&S Executive members, expressing the merits of giving the student positions more direct authority in the process and spreading the workload amongst all remaining members. • Gave feedback on the Wolves Brand Update, see “Public Relations Supports” section above for full details. • Received timeline for Clubs and Societies Awards, preparing to mark award nominations for Week 4. 	
Clubs & Societies Council	<ul style="list-style-type: none"> • Gave insights to the council surrounding my experiences in the C&S Executive and encouraged members to step forward for the positions next semester. • Provided newly-approved societies the link to the WhatsApp group as a helping resource for them during their trial periods. 	

Plans before the next meeting	
Action/work area	What I hope to achieve
Opening up Societies	The near-complete relaxation of restrictions has greatly helped speed up the return of activities to their standard capacity, will continue to support committees' queries when requested.
Societies Feedback	Gain insights from the societies concerning the brand update and relay the feedback to the C&S Executive.
Broadcasting ULFM to the Pool Room	Figuring out how the equipment in the pool room can be accessed and the feasibility of returning live broadcasts to the pool room. Also taking note of potential licensing issues associated with playing music in the room.
Elections Promotion	Update and encourage societies to come up with events to promote and encourage students to vote or nominate themselves for the Student Officer positions this semester.
Student Engagement	
Type of Engagement (Meeting, event etc)	Purpose and anything to report on
Societies WhatsApp	Continuing to assist committee members when relevant questions are asked.
In-Person Discussions	Supported society committee members regarding new safety guidelines.
Media engagement and external relations	
Engagement (Press, other organisations etc)	Purpose and anything to report on
